Glens Falls, NY –Danfoss Flomatic Corporation introduces their new Model 408² Ductile Iron Ball Check Valves that meet AWWA C508 check valve flanged to flanged lay lengths. The 408² features a 100% fusion bonded epoxy coating applied to the body and access port. These valves are designed for the demanding wastewater and storm water pump applications. They are available in 3”, 4” and 6” sizes.

Danfoss Flomatic also offers other models Ball Checks Valves 208, 408, and 508 for a variety of applications. Danfoss Flomatic’s Ball Check Valves are available in sizes from 1”-14” and are manufactured in Cast Iron, Ductile Iron, 316 Stainless Steel, and PVC. These valves are flow efficient and virtually no maintenance.

For more information, please call Danfoss Flomatic Corporation at 1-800-833-2040. You will also find detailed information on these products and all of their products at www.flomatic.com or please feel free to email them at flomatic@flomatic.com
