February 7, 2020 Glens Falls, NY – Flomatic is proud to introduce the new efficient American Iron and Steel (AIS) compliant Model 745 to the growing Flo-Flex® family of rubber disc swing check valves.

The new model 745 AIS is available in a size range of 3” – 12” providing the water and wastewater industry with one of the broadest lines of flexible rubber disc swing checks available on the market today. Designed and manufactured according to ANSI/AWWA C508 Standard.

Flomatic’s model 745 AIS swing check valve features a valve body with full flow area equal to nominal pipe diameter and a 45° angle seat providing short disc travel with faster closure for non-slam performance. An EPDM molded one piece disc features an integral molded O-Ring on the seating surface and is reinforced with steel. The hinge is reinforced with nylon and carries a 25 year warranty. The ductile iron 150# flanged body and cover are fusion bonded epoxy coated, inside and out. The valve can be installed in a vertical (flow up) or horizontal position.

The new heavy duty Flomatic 745 AIS is offered with optional accessories such as; backflush device, position indicator, and limit switch. Additional optional features include NPT threaded and plugged side ports for easy installation of gauges or accessories.

For more than 85 years, Flomatic has been leading the market and changing the valve industry with new innovative products. Manufacturing a full line of valves for the water and wastewater market, ranging from 1” – 36”, Flomatic’s products have been installed in a wide variety of applications with excellent results. Flomatic is an ISO 9001 and 14001 certified company with comprehensive manufacturing processes producing a diversified line of water and waste water valves including an expanding line of AIS compliant products.

For more detailed information on Flomatic’s new Model 745 AIS or to obtain a copy of the new 2020 condensed catalog, contact Dina Dieckert at 518-761-9797 ext.205 or visit our website at: <https://www.flomatic.com/>
