Glens Falls, NY – Flomatic Corporation introduces a new all 316 Stainless Steel Wafer Style Check Valve Model 888S6 and Model 888S6R. This new wafer check valve is available in 2" – 8" with metal to metal seating (888S6) or with a Buna-N option (888S6R) for a drip tight sealing. The Model 888 valve is designed for simple flange supported installation and will operate equally well in any position and is suitable for ANSI 125# or 250# mounting. The double guided spring loaded poppet system maximizes efficiency and minimizes water hammer with an easy field exchangeable internal system. The Model 888 is recommended for Booster Pump Systems, Mechanical Contractors, general utilities, Irrigation systems and HVAC liquid service.

For more detailed information on Flomatic's new **Model 888S6/888S6R** check valve or to obtain a copy of the new 2013 condensed valve catalog, visit www.flomatic.com, email them at flomatic@flomatic.com, call Flomatic Corporation at 1-800-833-2040 or fax them at 1-800-314-3155.
