Glens Falls, NY –Danfoss Flomatic Corporation introduces their new direct acting pump control with integral built in by-pass, Hydro Stat™ Model C3100. This constant pressure pump control valve reduces rapid pump cycling and maintains a pre-set operating pressure which is field adjustable. The Hydro Stat features a low lead alloy body and bell housing that has threaded female I.D. x male O.D. on inlet and outlet connections and corrosion resistant internal components with a Nylon reinforced Buna-N diaphragm. This valve can be installed vertical or horizontal and can be installed in the wall casing.

For more information please call Danfoss Flomatic Corporation at 1-800-833-2040. You will also find detailed information on these products and all of their products at www.flomatic.com or please feel free to email them at flomatic@flomatic.com
