NEWS RELEASE

Glens Falls, NY- Danfoss Flomatic Corporation introduces a new four-color bulletin covering their Kwik-Close™ Series 6000 Wafer Style Butterfly Valves ANSI 125/150. These new epoxy coated butterfly valves are the latest addition to their growing product line of high quality butterfly valves and are available in size range from 2” to 16”. These valves feature a ductile iron disc, EPDM seat liner, one piece stainless steel stem, corrosion resistant internal components and a 10 position lockable handle. The Kwik-Close™ Butterfly Valve has a pressure rating of 200 PSI and can be used in irrigation, agriculture, general water systems and reclaimed water systems and can be installed vertical and horizontal. The series 6000 butterfly valves can also be provided with an optional stem extension and gear operator. This new bulletin explains the Kwik-Close™ Series 6000’s features and benefits, dimensions and also has suggested specifications.

For more information, please call Danfoss Flomatic Corporation at 1-800-833-2040. You will also find detailed information on these products and all of their products at www.flomatic.com or please feel free to email them at flomatic@flomatic.com
