**Glens Falls, NY-** Danfoss Flomatic Corporation has introduced their Kwik-Close™ Series 6000 Wafer Style Butterfly Valves ANSI 150. These new fusion epoxy coated butterfly valves are the latest addition to their growing product line of high quality butterfly valves and are available in size range from 2” to 16”. These valves feature a ductile iron nickel plated disc, EPDM seat liner, one piece stainless steel stem, corrosion resistant internal components and a 10 position lockable handle. The Kwik-Close™ Butterfly Valve has a pressure rating of 200 PSI and can be used in irrigation, agriculture, general water systems and reclaimed water systems and can be installed vertical and horizontal. The series 6000 butterfly valves can also be provided with an optional stem extension and gear operator.

For more information, please call Danfoss Flomatic Corporation at 1-800-833-2040.
