Flomatic® Launches The ‘Water Hub Knowledge Center’

Flomatic’s new web based platform, The Water Hub Knowledge Center, provides insights, resources, and best practices to a wide range of stakeholders within the water and wastewater industry

GLENS FALLS, NY (January 23, 2022) – Flomatic® Valves has announced the availability of a new self-service education initiative hosted on Flomatic’s website which provides stakeholders updated digital training materials, technical resources, industry news, opportunities, and best practices to help drive the sustainable digital transformation within the water and wastewater industry. The ‘Water Hub Knowledge Center’ is aimed at delivering and advancing industry professionals with comprehensive guidance and solutions.

The centralized digital tool provides ongoing vital resources for others looking to expand their knowledge about a wide range of topics focused on the importance of manufacturing and engineering solutions. The Knowledge Center consolidates access to informative tools and provides a platform for empowering and educating leaders, especially those new to the industry. Within the tool, users can access frequently asked questions, technical articles, blog posts, industry news, among other leading topics to help foster collaboration and continued learning for a wide range of audiences including customers, engineers new to the industry, and beyond.

Flomatic® continues to make strides in its future readiness. The Knowledge Center introduces a quick and intuitive search to find the information Flomatic’s customers need while also defining Flomatic’s core values of innovation, integrity, and commitment for our customers. Flomatic® will continue to build its content throughout 2023 with the hopes to maximize its resources and digital tools among a growing range of topics.

For details, please visit the Water Hub Knowledge Center [HERE](#). Interested parties are encouraged to subscribe to email alerts [HERE](#) to receive regular updates and stay informed of latest Flomatic’s latest developments. For more information, visit Flomatic’s website www.Flomatic.com or contact Laura Jensen, [Marketing Communications Specialist](#), at (518) 681-3972.

ABOUT FLOMATIC® VALVES

For 90 years, Flomatic® Valves has been associated with some of the largest water and wastewater projects in the world as a global leader in the water and wastewater industry. Designing and developing a wide variety of valve products – from high quality check valves to automatic control valves ranging from 1 inch through 36 inch – we are an ISO 9001 and 14001 certified manufacturer offering comprehensive manufacturing solutions and a wide variety of AIS-compliant valves.
