

## FOR IMMEDIATE RELEASE

# Flomatic Appoints Scott S. Shimer as Vice President of Sales

**Glens Falls, NY – February 20, 2024** – Flomatic®, a leading global valve manufacturer in the water and wastewater industry, is pleased to announce the appointment of Scott S. Shimer as its Vice President of Sales. With a stellar track record in sales leadership and business development, Mr. Shimer brings over three decades of experience in driving growth in the water industry.

In his role at Flomatic, Mr. Shimer will be instrumental in leading the sales team, fostering strategic partnerships, and spearheading initiatives to expand Flomatic's market presence. His proven ability to build proactive teams and implement innovative strategies aligns perfectly with Flomatic's commitment to delivering cutting-edge solutions and unparalleled customer service.

*"We are thrilled to welcome Scott to the Flomatic team,"* said Nick Farrara, President of Flomatic. *"His extensive experience and leadership qualities make him the ideal candidate to drive our sales efforts forward as we continue to innovate and grow in the water and wastewater industry."*

Throughout his career, Mr. Shimer has demonstrated a strong focus on developing high-performing teams, driving sales growth, and cultivating strong customer relationships. His strategic vision and deep understanding of market dynamics have consistently led to increased market share for the organizations he has served.

*"I am excited to join the talented team at Flomatic and contribute to the company's continued success,"* said Scott Shimer. *"Flomatic has a long-standing reputation for excellence in the valve industry, and I look forward to leveraging my experience to drive growth and deliver value to our customers."*

Shimer holds an MBA from Lehigh University and a BA in Business Administration & History from Gettysburg College. He has also completed the ITT Strategic Management Program at Ashridge Management College and received Six Sigma Blackbelt Training.

### **About Flomatic:**

Flomatic® Corporation, established in 1933, stands as a premier manufacturer of valves and related products for the water and wastewater industry. Renowned for its pioneering products, steadfast quality standards, and customer-centric approach, Flomatic's products find applications in various domains, including municipal water and wastewater systems, commercial and industrial establishments, and residential well systems. Flomatic is a leading provider of innovative water control solutions for residential, commercial, and municipal applications. With a commitment to quality, reliability, and customer satisfaction, Flomatic offers a comprehensive range of products designed to meet the evolving needs of the water industry. From valves and controls to pumps and accessories, Flomatic delivers cutting-edge solutions backed by decades of expertise and industry-leading service and support.
